Top Running End Truck Pushed & Motorized

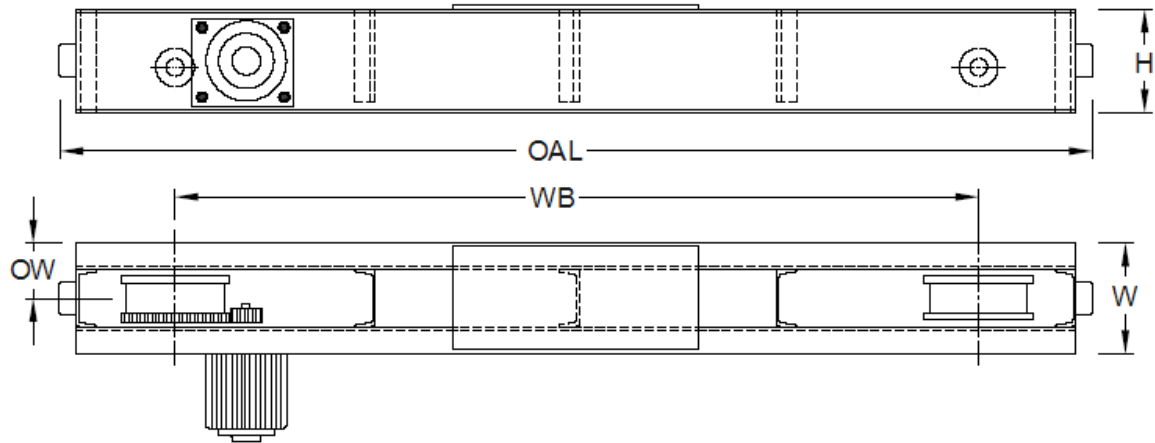

Features

- Capacity up to 5 ton
- Standard truck wheelbase 4 ft to 7.5 ft.
- Bridge span up to 60 feet. High impact rubber bumpers and bridge brakes are provided as standard.
- Push type or motorized type end trucks
- Minimum recommended rail is ASCE20#
- Wheel bearings are lifetime-lubricated precision ball bearings
- Custom designs available for longer spans.
- It will fit American Standard S and W beams.

End Truck Construction

End truck frames are constructed from steel channels which provide superior strength, rigidity and structural integrity.

The wheel base meets the CMAA span to wheel base ratio limit of 8 to 1. Wheel diameters are from 5" to 10", with a hardness of 350 BHN.
