

Hand Chain Hoist Model HCH

Features

- Capacity range from 0.5 to 20 tons.
- Lightweight, robust construction.
- One piece suspension frame.
- Low effort to lift maximum load.
- Fully machined lift wheel.
- Fully enclosed gear train.
- Fully forged hooks are fitted with safety swivel hook latches as standard.
- Automatic double pawl braking system, screw and disc type load brakes.
- Double cover protection.
- Anti-friction ball bearings.
- ISO high grade alloy load chain.
- Unique hand wheel cover for guiding hand chain at any angle.
- Zinc plated hand chain as standard.
- Each hoist is proof at 1.5 times of WLL.
- Slip clutch type load limiting device.

Hoist Construction

This hand chain hoist is an efficient means of lifting freely suspended material loads within its load rating. The frame and covers of the hoist are made from stamped steel construction.

The cast hand chain wheel and load activated break will provide smooth, precise spotting of loads.
