Higher Capacities & Higher Max Spans

SKU: METS05042F10

PRODUCT DESCRIPTION

Standard Features Include:

- **Capacity Range: 1 to 15 Ton (Higher capacities & custom designs available upon request)**
- **End truck wheels are machined and hardened to 450 - 500 Brinell, the highest hardness rating in the**

industry.

- **Fixed axle bores, machined from carbon steel are perfectly aligned for smooth travel and quiet operation.**
- **Standard wheel bases from 36" to 126" (Can be customized upon request)**
- **Factory configurable for a range of input voltage; 230/460V, 3 Phase, 60Hz.**
- **Control Panels are available for your crane, and each is UL508A approved, pre-wired, and tested.**
- **Variable drives for motorized end trucks available. Variable drives reduce handling time and increase safety and equipment life.**
